## OVERALL QUESTIONS

What is it about Ingleside Tutorial that appeals to you? Why do you think it's a good choice for your child(ren)?

Regarding Karen Glass' book, *In Vital Harmony*, share several ideas or concepts that resonate with you and share why. What are your thoughts to this approach to education and parenting?

Compare what you've read/watched/listened to your own education. What excites you about your child having a Charlotte Mason education? What concepts and ideas resonate with you and share why.

After watching/reading/listening to the required videos, book, and podcasts, what questions do you have? You're not expected to know or understand everything. We do hope these resources, while challenging, have been encouraging.

---

### Child #1

Name:

Tell us about your child's previous education/schooling. Describe the aspects of your child's previous educational experience which aligned (or not) with your philosophy/desire for his/her education.

Tell us about your child's temperament.

Tell us about your child's outdoor activity level.

Tell us about your child's interests.

Are there any academic or behavioral areas of concern? If so, please explain.

Does your child have any suspected or diagnosed learning differences, giftedness, or special needs? Please explain.

What, if any, medications is your child currently taking? Please include the reason for the medication.

Imagine your child is 18 and everything in his/her development and education turned out as you hoped. Try to describe him/her as a young adult. What characteristics and values would he/she have developed?
